Location Greater Los Angeles, CA

## TECH SKILLS

- Javascript
- Python
- HTML
- CSS
- React
- Redux
- Node.js
- Express

## EDUCATION

### Full Stack Web Development Computer Science

Lambda School

### A.A.s in Liberal Arts & Humanities

Mt. San Jacinto College

## AWARDS & INTERESTS

### Elementary My Dear Joan

Academic Essay

Published in anthology *The  
One Fixed Point in a Changing  
Age*

### Interests

- Progressive media analysis
- Marvel Cinematic
- Prose and screen writing
- Songwriting

## PROJECTS

### EatWell

Engineer - Lambda Labs | 2018

- Led the effort to modularize and organize codebase with boilerplate and refactors
- Spear-headed front-end functionality for multiple major features
- Instrumental in research and implementation of technologies the team was previously unfamiliar with, including Auth0 and reactstrap
- Transformed UI design per expert advice

### Feelzy

Project Manager - Lambda Labs | 2019

- Guided team through organization of team communication and distribution of work
- Provided support through re-scale of project from web with iOS to iOS-only due to losing multiple team members
- Coordinated extra UI/UX meetings with iOS-savvy instructor

### Inkglass

Personal Project | Current

- Designed after identifying growing yet underrepresented market of tech-friendly spiritualists
- Currently learning MongoDB and mongoose / non-RDMS to make the project more horizontally scalable as well as flexible in its early stages
- Designing front-end and back-end for accessibility and scalability

### Backpaca

Project Manager - Lambda Labs | 2019

- Brought on in 3rd week to help address team dynamic concerns
- Instrumental in the resolution of long-term tension between team members, resulting in the team overcoming major technical and communicative roadblocks

## EXPERIENCE

### Lambda School, Labs Program

Section Lead | February 2019 - April 2019

- Supervised and provided support to 8 Project Managers with up to 2 development teams each
- Led daily staff meetings and weekly team check-ins and presentations
- Developed new tool for organizing and tracking student information, attendance, and behavior, fully implemented in following iterations of the program
- Worked closely with instructors on documentation of Labs duties, processes, and policies
- Trained new Labs PMs and SLs for upcoming part-time and full-time cohorts

Project Manager | January 2019 - present

- Tracked organization and progress of each project and team member through Trello boards, 2 - 8 Pull Request reviews each day, and morning stand-up meetings
- Practiced check-in presentations and demos with each team, twice a week
- Attended staff meetings daily and cohort presentations 4 - 8 times a week

### Lambda School, Full Stack Web Program

Teaching Assistant | September 2018 - present

- Managed small groups of students through courses in HTML, CSS, Javascript, React, and Redux
- Provided live debugging assistance and code review for 5 - 10 students each week
- Established student feedback score ranging between 91% to 95% on average
- Facilitated daily student stand-up meetings and weekly code challenge solution lectures
- Held 1-on-1 meetings with each student at the end of each module, every 2 weeks, to discuss performance on the Sprint Challenge and points of weakness to strengthen moving forward
- Accepted promotion to Flex position in January; facilitated group activities when Lead Flex PM was unavailable, and attended additional weekly meetings for the Flex program
